Patented by L. HUNTOON, May 15 and July 17, 1866, and April 9, 1867.

The construction of this ENGINE is such, that instead of exhausting into the atmosphere, as is the case with the single cylinder Engine at a high pressure, we convey the steam into a second cylinder of four times the area of piston, and expand the steam to atmospheric pressure, we having two pistons apply the power to two nearly opposite cranks, thereby giving a greater regularity of motion, and relieving the friction of the crank-shafts, and by our method we claim and can demonstrate a saving of from 33 to 50 per cent over any other engine now in the market.

PEAK & PINKHAM, BOSTON.

PAT. MARCH 22, 1864.

We have received our Patent from the United States for our **SELF-SEALING AIR-TIGHT TRANSPORTATION and BURIAL CASKET**, particularly adapted to the conveyance of Bodies from a distance. They can be sealed up by any person, and are perfectly air-tight.

Many efforts have been made to preserve the form and features of a departed friend without the usual mode, so repugnant to the feelings, of placing the body in ice. This difficulty has been overcome by a **PATENT AIR-TIGHT PRESERVER**, in which cold air is the medium used, acting as a preservative in the warmest weather, for any length of time. At the same time the body is entirely secured from nocturnal depredations, while a glass reveals, at any moment, the features of the departed; thus arranged, it can be CONVEYED HUNDREDS OF MILES with perfect safety, and in a good state of preservation, which has already been done.

JOHN PEAK & SON, FUNERAL UNDERTAKERS,

Attend to any duty connected with their profession, at the shortest notice. At their

WAREROOMS,

146 FRIEND ST., & 1188 WASHINGTON ST.,

MAY BE FOUND THE LARGEST ASSORTMENT OF

COFFINS AND CASKETS

IN THE CITY. ALSO,

GRAVE CLOTHES OF ALL SIZES AND QUALITIES.

All orders left at Warehouse, or at House, 72 Green Street, or at 1188 Washington St. (entrance in rear of Store), promptly attended to.

JOHN PEAK.

JOHN H. PEAK.

STREET DIRECTORY.

GIVING the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Washington Street No. 639 comes, you look at Washington St., upon page 29, and find that Hollis St. runs from 617, and Common St. from 661, showing that 639 Washington would come about half way between Hollis and Common.
